

On the Subject of Needy Slots

Huh. You'd think a bomb would stop a gambling addiction, but I guess not.

While the WINNER sign has flashing lights:

- If the slot machine has valid set of symbols in any order, do not pull the lever again.
- Otherwise, before the lever is fully raised, pull the lever.
- If the result is X X X, the lever will rise rapidly.

If the WINNER sign has alternating flashing lights:

	Valid Slots		
No Strikes	L L L	L T B	T B B
1 Strike	L L T	L B X	T T B
2+ Strikes	L L L	T T X	T B X

If the WINNER sign flashes all together:

	Valid Slots		
No Strikes	L X X	L T B	T T T
1 Strike	L L L	L T X	B B X
2+ Strikes	T B X	B B X	B B B
